HOME LEARNING – Shadow Drawing

SHADOW DRAWING

What you need:

- Paper, pencil, animals or other figures... and the sun

Instructions:

- On a sunny day go outside and find a sunny spot.
- Place your animal on the ground and then place your sheet of paper where the shadow is. If you're not on a hard surface, you might need to put something under your paper.
- Trace around the shadow to create an outline of the animal. You might also like to colour in and decorate.
- We would love to see a photo of your work.
