3. BACKGROUND AND LEGISLATION

Background

Everyone involved in an early childhood education and care service has a role to play in ensuring the service's operations are safe and without risk to the health and safety of all parties. In Victoria, health and safety in the workplace is governed by a system of laws, regulations and compliance codes that set out the responsibilities of employers and employees to ensure safety is maintained at work.

The *Occupational Health and Safety Act 2004* (OHS Act) sets out the key principles, duties and rights in relation to workplace health and safety. The *Occupational Health and Safety Regulations 2017* specifies the ways duties imposed by the OHS Act must be undertaken and prescribes procedural/administrative matters to

support the OHS Act, such as requiring licenses for specific activities, or the need to keep records or notify authorities on certain matters.

The legal duties of an **employer/committee** under the OHS Act are:

- to provide and maintain a workplace that is safe and without risk to the health of employees. This responsibility extends to contractors for routine tasks over which the employer has direct management. For contractors completing non-routine tasks, the employer must ensure that the service's daily operations and layout do not pose unreasonable risks
- to ensure other individuals, such as families and visitors, are not exposed to health and safety risks arising from the organisation's activities
- to consult with employees about OHS matters that will, or will likely, affect employees directly, including identifying hazards and assessing risks, and making decisions about risk control measures.

The OHS Act places the responsibility on **employees** for:

- taking care of their own safety and the safety of others who may be affected by their actions
- co-operating with reasonable OHS actions taken by the employer, including following guidelines, attending OHS-related training, reporting incidents, co-operating with OHS investigations, encouraging good OHS practice with fellow employees and others at the service, and assisting the employer with conducting OHS inspections during operating hours
- not interfering with safety equipment provided at the service, such as fire extinguishers.

Legislation and standards

Relevant legislation and standards include but are not limited to:

- *Accident Compensation Act 1985* (Vic)
